Mission

Deepshikha aims to work for child development and mental health by developing models of clinical services, education, skill training and advocacy.

Vision

To enlighten, enrich and empower the differently abled persons.

As we usher into the 25th year, we can look back with satisfaction at the feats accomplished! From a one room and a portico for a day care centre to a 30,000 sq ft. of constructed area, this group of ladies have proved their mettle!

When Deepshikha started, the Ranchi people did not give it more than a passing passion of the ladies with nothing much to do. However, we soon proved them wrong. One thing led to another.... From the day care centre and outdoor, we stepped into manpower training, vocational training and others and then there was no looking back. Being associated from the very beginning, I cannot recall a single incidence that we wanted to quit. What probably drove us was our belief in the mission, and our amazing group of volunteers.

Dr. Alka Nizamie: a person who is the back bone of Deepshikha and who strongly believes that “no creation of HIS is without any purpose!

Mira Budhia: her commitment and zeal can put a teenager to shame.

Usha Jalan: can make a heavy duty task feel light!

Manju Gupta: can find a reason to laugh under any circumstance!

Umaji, Pramod, Rama, Priyanka, Deepa, Anju, Jyoti, Sanjay who have all contributed to our vision and mission in their own special ways and who along with the very special children and their parents have become part of Deepshikha family over the years!

And what makes Deepshikha special is our 'family'. Each one 'feels' for the other, understands the needs of the child and give their very best for the betterment of the child.

I, for myself, am learning every single day!

Out Door Clinic

Deepshikha OPD Services have now developed into one of the best multisensory, multidisciplinary, therapeutic service unit in Jharkhand. The number of new registration however remains almost at par with last 3 or 4 years. However, this year the number of self referral have increased indicating the increased awareness about disability and services given at Deepshikha.

Out of 275 newly registered children, 97 had mental retardation and co-morbid conditions; 75 global developmental delay; 23 with delayed speech and language, 19 with cerebral palsy. But what draws our attention is the increase in the number of children with autism. We have registered 17 children with Autism spectrum Disorder.

To provide quality services to children with Autism we have started a multisensory therapy unit with guidance of Ms. Rosie Whitworth, a VSO volunteer from England who is an occupational therapist.

The follow up services in the OPD have increased and parents are proving to be very good partners in planning, assessing and executing services.

New Additions

❖ **Toy Library:**

A toy library was started for the overall development of the students. A number of educational and fun toys are kept here. Through these toys they learn various social and cognitive skills like sharing, group behavior, shape and size, colour, eye-hand co-ordination, fine motor, attention etc. These skills help junior students in classroom activities also. The overall concept is based on Montessori Method of learning.

Some students have learnt the rules of different games. They take permission from concerned teacher to use the toys and return on time. Thus they are learning two important skills: -

- ❖ To maintain time
- ❖ To own responsibility to submit the toys in good condition at the right place.

❖ **Transition of students:**

Thirteen students have completed their school level training and have been shifted to **skill training unit**. We can say that each of these students have learnt school level training to the best of their ability. Some of them are better in extra-curricular activities. We try to give our best to improve their potential.

Names of students transferred to Skill Training Unit :

- | | | |
|-------------------------|------------------|---------------|
| ❖ Alok Bage | ❖ Swati Sinha | |
| ❖ Amar Nishad | ❖ Arti Kumari | ❖ Ankit Kujur |
| ❖ Siddharth Chakraborty | ❖ Medha Sinha | ❖ Rakesh Gaur |
| ❖ Shampy | ❖ Ashutosh Kumar | ❖ Tara |
| ❖ Shreya Raj | ❖ Pummy Kumari | |

❖ **Capacity Building Exercise:**

Alok Bage is being trained as **shopkeeper helper** in ‘Ganesh Store’ near Deepshikha , Namkom. He can now deal with customers, do billing and money transaction independently. He can also operate Xerox machine. Now he is ready for Vocational placement.

❖ **Computer Section:**

Each and every student of school section attends computer class. The lesson and work is planned for every student according to their performance level. A number of students are learning computer typing and are doing very well.

Progress:-

- ❖ Some children have lack of attention and hyper activity. They do not sit at a place even for 10 minutes but in computer class they enjoy learning through computer games and music.
 - ❖ Some of the children learn typing on computer. This skill helps the students in AMBA Classes also.
- Competitions and workshops prepare students to be confident, smart and socially active. They also learn co-exist in a group and at the same time, get opportunity to extend their abilities.
